August 2021-May 2022

Le Moyne College, College of Arts and Sciences, Syracuse, NY

B.S. Engineering Physics

August 2017-May 2021

Minor: Mathematics

WORK EXPERIENCE

Process Engineer at Siemens - Business consultant at Sqills (Product of Ticketing and Revenue optimization)

April 2026 - present

- Onboarded as Business Consultant for Sqills, a software platform for ticketing and revenue management configuration in long-distance rail, gaining hands-on product knowledge through partner demos (e.g., Sonda, Mexico).
- Collaborated cross-functionally with product development teams to align on customer requirements, prioritize improvement requests and investigate issues using Postman and New Relic on maintenance projects (e.g., Iryo, Spain).

Customer Success Manager at Neurored (Product of Transport, Logistics, and CTRM built in Salesforce)

Dec 2024-March 2025

- E2E Project Management role using the Neurored products (Bulk, TMS, Track and Trace and RMS for Air, Sea, Road and rail transport modes) built on Salesforce CRM.
- Carried out workshops and demos for Freight Forwarders including VarovaOy and The Scoular Company.
- Led Salesforce maintenance contract for Neurored's top Freight forwarding account (XPD Global), valued at over €1.2M annually, leading a team of 13 and aligning global rollouts across LATAM, APAC, and EMEA.
- Built dynamic dashboards using SAQL allowing financial and operation teams to track invoice profitability, user engagement of the system (over 1500 active users), and data structure gaps.
- Oversaw new developments of a team of 10 developers weekly, optimizing logic and automation paths resulting in the reduction of time and clicks in processes such as creating quotations or invoicing.
- Defined digital solutions using Agile, Figma and Lucidchart for new developments, including API integrations and AI initiatives.

Business Analysts at Neurored (Product of Transport, Logistics, and CTRM built in Salesforce)

Dec 2022-Dec 2024

- Collaborated in Implementation of international Projects including Toyota Machinery (Order Management), Holcim Trading (TMS), Cultura Trading (Bulk & CTRM) and ProCarrier (Air Cargo TMS module)
- Carried out weekly and monthly profit/status reviews, optimizing team resourcing and identifying task bottlenecks to report to the board weekly.
- Collaborated with design, planning, and testing of road transport processes for Neuroreds RMS and TMS products.

Graduate Assistant at Le Moyne College

Sept. 2021-May 2022

- Attend to visitors and deal with inquiries on the phone and face to face. Perform data sorting using excel and provide assistance to the department faculty and staff as requested.

ADDITIONAL INFORMATION

- Weekly trading of stocks on Trade Republic and Degiro.
